

Struggling to meet SMSC / PSHE requirements?

Need assembly speakers with real convictions?

Want to warn your students of the dangers of alcohol and drugs, but don't think that they will listen to you?

DAES team deliver an assembly, seminar or INSET and parents evenings to fit your needs on the subject of addictive substances, spotting signs of substance misuse and their dangers. Our team are all ex-addicts, and professional drug and alcohol treatment providers who have turned their lives around. We will speak to your students or staff 'as it is' and with authority and great integrity.

We use a number of creative ways to raise the issue which is both age and material appropriate across all Key Stages, Sixth forms, Colleges and University students. Pupil Referral Units and Youth Facilities.

Our Approach

Drug and Alcohol Education Service supports development and delivery of PSHE and Citizenship education programmes. Our model for drug education encourages a whole school approach, working in a school-led way. We provide an external contribution to implement effective practice in PSHE education and Citizenship. Our organisation has expertise and experience of good practice in drug education and managing drug related incidents.

As an outside agency we are an important resource in drug, alcohol and tobacco education. We use our experience to make positive contributions to the aims of drug education within the curriculum. We are also committed to the principles of the government's National Drugs Strategy. This includes helping young people to resist drug misuse in order to achieve their potential in society.

**DAES
effective
practice in
PSHE
education:**

- ▶ Deliver high quality inclusive culturally appropriate drug and alcohol education.
- ▶ Include lessons which are interactive, participative and engaging; pupils' views and evaluation.
- ▶ Proactively provide information on the potential risks and harms of taking drugs and NPS (New Psychoactive substances.)
- ▶ Highlight potential risks and harms of using these substances to enable people to take personal responsibility for their decisions.
- ▶ Increase pupils' knowledge and confidence to resist peer pressure and recognise the risks of NPS (and other drugs).
